The Intelligent Choice In Steam

VapourTek™ Dry Steam Systems

System Comparison Chart

Use the Chart below to rack up points for the areas that you wish to clean to see if steam only or steam vacuum is more suited for your requirements. The point scoring system is designed to make your choice simple. Scoring is done on how effective each system is with 5 being excellent and 1 being adequate. If there is no score then the system is unsuitable for the task. To save time the bottom line is General Household Cleaning if your requirements are broad!

Area of Use	Hand Held	Steam Only	Steam Vacuum
Ovens & Appliances	3	5	3
Hard Floors		3	4
Carpets & Rugs		3	5
